

**Village of Lake Isabella
Isabella County, Michigan
Public Notice of Intent to Apply for Funding
USDA Rural Development Utilities Program (RDUP)**

The Village of Lake Isabella does hereby provide public notice pursuant to RUS Instruction 1780.19 of its intent to apply for funding eligibility to the USDA Rural Development Utilities Program.

The purpose of this application is to determine the availability of funding, including grants, as part of the Village's ongoing effort to address the restriction and limitation of on-site wastewater systems in the plats of Lake Isabella South and Lake Isabella Golf Estates II. These restrictions are contained in the building and use documents for each plat, copies of which may be obtained at the Village Hall.

Funds secured via the RDUP would be used for the construction of a wastewater collection and treatment system based upon the final report and recommendation of the Village's engineer. A copy of the engineer's report is available at the Village Hall at the address below, and also online at www.lakeisabellami.org. A copy of the USDA application can be viewed at the Village Hall.

Please be advised that this application is only to determine funding eligibility, and does not obligate the Village of Lake Isabella to proceed with the project. Upon receipt of the USDA's funding determination, the Village will report the finding to the property owners in the impacted area for their direction on how to further proceed.
