Central Michigan District Health Department  
Mr. Scott Jones  
2012 East Preston  
Mount Pleasant, MI 48858

Dear Scott:

I am writing to you to briefly follow-up on our conversation from our meeting in late February regarding Golf Estates II. As we discussed, our records of home construction reflect that only 43 homes have been built in Area 4 of the plat. This area of the plat did not have site specific restrictions on septic permits, but rather a blanket number not to exceed (56 homes). I have enclosed a map that reflects which lots homes have been constructed on in this area. If you have a moment I would appreciate it if you could investigate specifically how many permits remain in Area 4 based on this map and the permit records of the Health Department.

Thank you in advance for your assistance in this matter. To the extent that it is practical, I would like for the Village and the Health Department to be on the same page when it comes to the permitting issue in the unbuildable plats. As you can imagine, this is an extremely frustrating matter for people who have property in these areas of the village, and it does not service them to any degree for our organizations to hold different perceptions of the situation. I look forward to working together this summer in reviewing the soils in the Airpark plat.

If you have any questions, please feel free to contact me at the Village office.

Sincerely,

A handwritten signature in black ink, appearing to read "Timothy R. Wolff", is written over a large, stylized circular flourish.

Timothy R. Wolff  
Village Manager
